BDL extends support for setting up RO waters plants in AP dist

Hyderabad | Friday, May 3 2013 IST

As a part of its Corporate Social Responsibility, Bharat Dynamics Limited (BDL), a Defence Public Sector Undertaking has extended support to Naandi Foundation, (an NGO) to provide safe drinking water to the residents in and around Narayanpur and Jangoan of Narayanpur Mandal and Peepal pahad of Choutuppall mandal, Nalgonda district of Andhra Pradesh.

BDL Executive Director (P&A) Dr N K Raju today inaugurated two Reverse Osmosis (RO) plants at Narayanpur and Jangoan of Narayanpur Mandal to supply drinking water at nominal cost of 10 paise per litre.

In his inaugural speech Dr Raju explained that BDL desired to develop Narayanpur Mandal which is the biggest Mandal in Nalgonda district and mostly constitute the tribal population called Lambada.

He said BDL has selected this area to extend the benefits to ST,SC &OBC population and in specific to tribal population. Four activities are selected and one among them is safe drinking water and Company is proposing to spend around Rs 63 Lakh on this project.

Dr Raju hoped that these two water treatment plants will meet the drinking water requirement of the residents and effectively address the water contamination issues of the area. Apart from providing safe drinking water, BDL in association with Help Age India, is running one Mobile Medicare Unit to give treatment to senior citizens with free distribution of medicines. In association with Action for Food Production (AFPRO), BDL is working on providing eco-sanitation toilets and around 212 toilets were completed in the financial year 2012-13, the company said in a release and added in association with The Akshayapatra Foundation, BDL is providing Mid-day meal to 15 schools in Patancheru mandal, Medak district. The company is proposing to spend around Rs 3.50 crore on these projects, the release said. UNI CS AKM AK1718 NNNN
